Profile

A junior full-stack software developer, particularly interested in a graduate role where I can learn and hone my skills in software development while contributing to a team.

I am an avid reader, a quick learner, and passionate about exploring new technologies. Previously, I was a Field Service Engineer with two years of experience in the telecommunications sector and three years of experience in the production sector as an Operator.

Skills

Back-End Technology

- Python

Front-End Technologies

- HTML5
- CSS3
- JavaScript
- Bootstrap

Editors/IDEs

- Visual Studio Code
- Sublime 3
- Gitpod

Other Technical Skills
